ALABAMA BIRDING TRAILS

Teacher Resource Guide
ALABAMA BIRDING TRAILS

Teacher Resource Guide

alabamabirdingtrails.com
With over 430 bird species documented in Alabama, there is more to see here than you can imagine. Watching a Bald Eagle feeding babies in the nest near Guntersville State Park? Check! Sitting quietly as dozens of Rose-breasted Grosbeaks literally crash-land into the nearest tree on Dauphin Island? Absolutely! These are just two of the stops along this series of eight trails and 270 stops.

Over 10 years in the making, the system of eight trails highlights the best public locations available to watch birds year-round. Alabama provides critical habitat for hundreds of bird species, from the Endangered Red-cockaded Woodpecker to the now flourishing Bald Eagle. Interest in wildlife observation continues to grow, and more and more people want to explore a number of species of plants and animals. The Birding Trails project provides a major attraction for nature-loving tourists, while offering exciting birding opportunities for Alabama’s school groups, families, and seasoned birders.

The eight Alabama Birding Trails unify existing and potential birding sites into a series of cohesive trails and loops that are collectively marketed as a part of a statewide system. Thousands of birders and other visitors are already using many of the sites along the various trails annually.

Alabama’s Birding Trails offers the public a chain of eight geographic regions known as the following: North Alabama, West Alabama, Appalachian Highlands, Piedmont Plateau, Black Belt Nature and Heritage, Pineywoods, Wiregrass, and Alabama Coastal Birding Trail.

This is a collaborative project. The Alabama Tourism Department has provided much of the funding for this project; The University of Alabama Center for Economic Development is providing the leadership role of facilitation and project scope; The Alabama Department of Conservation and Natural Resources is providing their depth of knowledge relative to wildlife habitat, birding and previous birding trails experience; The Birmingham Audubon Society has provided experience that only deeply knowledgeable birders could. Chambers of Commerce across the state have taken great pride in this project, as have our Federal partners, the U.S. Army Corps of Engineers, National Forest Service, and others.
Teachers,
Welcome to your Alabama Birding Trails Resource Guide to assist you in exploring the great outdoors with your students through birding.

What is included:
- State and National Resources.................................................................1
- Outdoor Classroom Resources.................................................................3
- Economic Impact of Birding.................................................................15
- Alabama Bird Posters...........................................................................18
- Common Alabama Birds Flash Cards..................................................22
- Regional Trails Rack Cards..................................................................30
- Field Trip resources...........................................................................36

How does this fit into my teaching plan?
Use evidence and scientific reasoning to explain characteristic animal behaviors such as building nests to protect young from cold, herding to protect young from predators, attracting mates for breeding by producing special sounds and displaying colorful plumage, transferring pollen or seeds to create conditions for seed germination and growth.
Specialized plant structures such as flower brightness, nectar and odor attract bids that transfer pollen. The hard outer shell on seeds providing protection prior to germination, affects the probability of successful reproductions of both animals and plants.

STATE & NATIONAL RESOURCES

ALABAMA BIRDING TRAILS
State & National Resources

Below is a list of resources to help you enjoy Alabama’s birder-friendly natural environment.

Alabama Resources

**The Alabama Department of Conservation:** The Department of Conservation and Natural Resources is an executive and administrative department of the State of Alabama created by statute. The Commissioner, appointed by the Governor as a member of his cabinet, advises the Governor and Legislature on management of freshwater fish, wildlife, marine resources, waterway safety, state lands, state parks, and other natural resources. [outdooralabama.com/wildlife/birds](http://outdooralabama.com/wildlife/birds)

**AL Birds:** For the discussion of wild birds, birdwatching and birding related issues (conservation, field trips, etc.) in Alabama. This email/online list serve as an excellent resource for finding out where birds are being seen right now, along with beautiful photos and entertaining commentary. [birding.aba.org/maillist/AL](http://birding.aba.org/maillist/AL)

**Birmingham Audubon Society:** The mission of Birmingham Audubon is to promote conservation and a greater knowledge of birds, their habitat, and the natural world. Birmingham Audubon leads trips across the region and throughout Alabama. They have beginner bird walks, classes to help you become a better birder and lead short and full day trips looking for great birding. [birminghamaudubon.org](http://birminghamaudubon.org)

**Alabama Ornithological Society:** The Alabama Ornithological Society (AOS) is involved in many worthwhile activities. Check out their website to learn more about AOS and the efforts they’re currently involved with to promote ethical birding and the conservation of Alabama’s natural resources. [aosbirds.org](http://aosbirds.org)

National Resources

**National Audubon Society:** Protecting waterbird populations has been part of Audubon’s mission even before the official establishment of the National Audubon Society. Outrage over the slaughter of millions of waterbirds, particularly egrets and other waders, for the millinery trade led to the foundation of the Massachusetts Audubon Society in 1896. [audubon.org](http://audubon.org)

**eBird:** A real-time, online checklist program, eBird has revolutionized the way that the birding community reports and accesses information about birds. Launched in 2002 by the Cornell Lab of Ornithology and National Audubon Society, eBird provides rich data sources for basic information on bird abundance and distribution at a variety of spatial and temporal scales. [ebird.org](http://ebird.org)

**Cornell Lab of Ornithology:** The Cornell Lab of Ornithology is a world leader in the study, appreciation, and conservation of birds. Their hallmarks are scientific excellence and technological innovation to advance the understanding of nature and to engage people of all ages in learning about birds and protecting the planet. [birds.cornell.edu](http://birds.cornell.edu)

**All About Birds:** Your online guide to birds and bird watching: [allaboutbirds.org](http://allaboutbirds.org).
OUTDOOR CLASSROOM RESOURCES

ALABAMA BIRDING TRAILS
Outdoor Classroom Sites on Alabama’s Birding Trails

The Alabama Birding Trails (alabamabirdingtrails.com) and the Environmental Educators Association of Alabama (EEAA) are teaming up together with a new and exciting project to bring the classroom to the outdoors! This stimulating project will help to provide young birders with the hands-on tools and information needed to learn and improve birding skills while teaching about Alabama’s environment and our abundant natural resources.

The project allows teachers to enhance their teaching tools of incorporating environmental topics into the curricula while actually experiencing the outdoors; this makes learning much more rewarding. The Alabama Birding Trials include over 270 sites from the mountains to the gulf to visit, learn and watch the birds.

The eight regional birding trails throughout Alabama are identified as: North Alabama, West Alabama, Appalachian Highlands, Piedmont Plateau, Black Belt Nature and Heritage, Pineywoods, Wiregrass, and Alabama Coastal Birding Trail. A preliminary total of 58 birding sites throughout these regions have been identified as Outdoor Classrooms. Each region has multiple locations that can be visited in a one-day trip. Visit the website to learn of upcoming events and plan an educational field trip.

Teachers are able to contact the designated outdoor classroom sites directly to make arrangements and develop an excursion suited to their needs. In most cases, a covered pavilion is provided where an outdoor teaching session or sack lunch could be enjoyed.

With over 430 bird species documented in Alabama, the learning experiences are endless. The overall Alabama Birding Trail project itself has been a ten-year long collaborative project: The Alabama Tourism Department has provided much of the funding for this project; The University of Alabama Center for Economic Development is providing the leadership role of facilitation and project scope; The Alabama Department of Conservation and Natural Resources is providing their depth of knowledge relative to wildlife habitat, birding and previous birding trails experience; The Birmingham Audubon Society has provided experience that only deeply knowledgeable birders could. Chambers of Commerce across the state have taken great pride in this project, as have our Federal partners, the U.S. Army Corps of Engineers, National Forest Service, and others.

West Alabama Birding Trail:

**Brierfield Iron Works,** located in Brierfield in Bibb County. The facility is a State Historical Park. Contact to schedule an outdoor classroom experience is Teresa Acker, phone (205) 665-1856 or brierfield@att.net; staff is not available for educational programming. The facility is staffed and open from 5 am – 9 pm. The facility has restrooms, 4 covered pavilions, is suitable for grades 3-8; can hold up to 500, car or bus parking is available near the facility. Fees are $3/ages 6 - 11; $4/ages 12 - 61; Ages 5 and under free; snacks and drinks are available for purchase at the gift shop. **GPS Coordinate Latitude:** 33.0394444; **GPS Coordinate Longitude:** -86.9488889.

**Cahaba River NWR,** located in Bibb County. Contact to schedule an outdoor classroom experience is Keith Westlake, phone (256)-848-6833 or cahabaribver@fws.gov. The facility is not staffed at all times, but educational programming can be scheduled by contacting Mr. Westlake. The facility is open from dawn to dusk. There are no restrooms, or covered pavilions, but is suitable for grades 3-8. Car or bus parking is available near the facility. There is no fee, food or drink or gift shop. **GPS Coordinate Latitude:** 33.0931632; **GPS Coordinate Longitude:** -87.0593142

**Forkland, AL,** located in Greene County. Contact to schedule an outdoor classroom experience is Mr. Chip Dixon with the Corps of Engineers; phone: 334-289-3540 or Larry.e.dixonII@usace.army.mil. The facility is staffed and open from 6 am – 10 pm. The facility has a restroom, a covered pavilion that can hold up to 30, is suitable for grades 3-8; car or bus parking is available. There is no food/drink or gift shop at the facility. Fee: there is no entry fee. Educational programming can be scheduled by contacting Mr. Dixon. **GPS Coordinate Latitude:** 32.6268205; **GPS Coordinate Longitude:** -87.883098

**Lake Lurleen,** located in Coker Alabama in Tuscaloosa County. The facility is a State Park. Contact Dee White, phone: 205-339-1558 or dee.white@dcnr.alabama.gov one month prior to event to schedule an outdoor classroom experience. The facility is staffed and open from 8 am – 4 pm. The facility has restrooms, 4 covered pavilions that hold 60 people each, is suitable for grades 3-8, car or bus parking is available. Fees: School rate - $2 per person and age 0-3 are free; $2/ages 4-11; $4/ages 12 - 61; Contact the Office for group rates: Dee White: (205-339-1558). **GPS Coordinate Latitude:** 33.2959514; **GPS Coordinate Longitude:** -87.676437

**Moundville Archaeological Park,** located in Moundville, AL in Hale County. The facility is owned by The University of Alabama. Contact Kenric Minges lkminges@ua.edu; Kayla Scott kscott1@ua.edu or Lisa Rasco lirasco@ua.edu or 205-371-8732 to schedule an outdoor classroom experience and educational programming. The facility is staffed and open from 9 am – 4 pm. The facility has restrooms, covered pavilions, car and bus parking and is suitable for grades 3-8. Visit the on-site café for the purchase of drinks/muffins; students can bring a sack lunch; or contact Kayla/Lisa to arrange for catering, i.e. Subway, etc. Fee: Call Kayla or Lisa for group rates; $6 per student; $8 per adult; 1 Teacher free per 15 students; under 5 free. **GPS Coordinate Latitude:** 33.002722; **GPS Coordinate Longitude:** -87.628139
**Tannehill State Historical Park**, located in McCalla, AL in Tuscaloosa County. The facility is a State Historical Park. Contact Debra Lustre (205) 477-5711 to schedule an outdoor classroom experience. **GPS Coordinate Latitude:** 33.24497; **GPS Coordinate Longitude:** -87.06907

**Tom Bevill Lock & Dam**, located in Pickensville in Pickens County. The facility is managed by the U. S. Army Corps of Engineers. Contact Bill Campbell, phone: 662-245-5500 or william.j.campbell@usace.army.mil or the Park Ranger to schedule an outdoor classroom experience. The facility has restrooms, a covered pavilion and is suitable for grades 3-8. The facility is staffed and open 9 am – 5 pm. Bus parking is available. No gift shop or food is available on site, but can bring a sack lunch and drinks. **GPS Coordinate Latitude:** 33.2124955; **GPS Coordinate Longitude:** -88.2823793.

**UA Arboretum**, located in Tuscaloosa, AL in Tuscaloosa County. The facility is managed by The University of Alabama. Contact Monica Watkins, phone: (205) 553-3278 or mhmwatkins@ua.edu to schedule an outdoor classroom experience. The facility has restrooms, a covered pavilion and is suitable for grades 3-8. The facility is open 8 am – sunset. Parking is limited; must contact Arboretum staff for special parking. Parking on grass or any area other than gravel/road is prohibited. Large groups are encouraged to park at the old golf course parking lot and walk to the Arboretum via the trails. Main visitor parking lot is located uphill from the Pavilion and greenhouses. A secondary small parking lot is available adjacent to the Children's Garden. Fee: no entry fee, however donations are appreciated. **GPS Coordinate Latitude:** 33.192138; **GPS Coordinate Longitude:** -87.478184.

**Walker County Lake**, located in Jasper, AL. The facility is managed by Charlie Skalnik, Lake Manager. Phone: 205-221-1801 The facility has a gazebo and pavilion; the gazebo is near the nature trail head where concrete picnic tables are. The pavilion has 8 wooden picnic tables and is near a concession building where the restrooms are located. Central Alabama’s destination for family-friendly outdoor fun. Our 163-acre lake provides recreational opportunities for every age and skill level, with new activities and amenities being added all the time. In our neck of the woods, the scenery is so remarkable, we’ve had a pair of bald eagles move in! Our current two-mile trail system will soon grow to five miles, giving guests more access to unique avian habitats. Before you go, visit alabamabirdingtrails.com to see what you’ll find on our section of the West Alabama Birding Trail. [www.walkercountylake.com](http://www.walkercountylake.com) Address: 4227 Walker County Lake Road, Jasper, AL 35501  **GPS Coordinate Latitude:** 33.806270; **GPS Coordinate Longitude:** -87.234800.

**Appalachian Highlands Birding Trail**

**Birmingham Zoo**, located in Birmingham, Alabama in Jefferson County. The contact is Kathy Fournier, Schools Program Manager, 205-397-3862; kfournier@birminghamzoo.com. Other contacts are: Taylor Dillinger; (205) 870-5230 or groups@birminghamzoo.com; and Roger Torbert; 205-879-0409 or rtorbert@birminghamzoo.com. The facility has restrooms, a covered pavilion for 200+ and is suitable for grades 3-8. The facility is staffed and open 9 am – 5 pm. Car and bus parking are available. Gift shops and food is available on site. There is a fee, for a fee schedule, contact Taylor Dillinger at (205) 870-5230 or groups@birminghamzoo.com. **GPS Coordinate Latitude:** 33.48942; **GPS Coordinate Longitude:** -86.77877.

**Horton Mill Covered Bridge**, located in Oneonta, Alabama in Blount County. The contact is John Bullard, 205-625-6868x 1 or jbullard@blountcountyal.gov. The facility is not staffed, does not have restrooms, food or drinks, a gift shop or a covered pavilion and does not have parking for a school bus, but is suitable for a teacher-guided tour for grades 3-8. The facility is open from dusk to dawn. **GPS Coordinate Latitude:** 34.007644 ; **GPS Coordinate Longitude:** -86.44863.

**James D. Martin Park**, located in Gadsden, Alabama in Etowah County. The contact is Christina Richardson; 256-549-4663 or crichardson@cityofgadsden.com; a second contact is Jennifer Gipson; 256-549-4680 or...
jgipson@cityofgadsden.com. The facility is not staffed, does not have restrooms, food or drink or a gift shop, but has a covered pavilion, bus parking, and is suitable for a teacher-guided tour for grades 3-8. The facility holds 500+ people, and is open from 8 am – 5 pm. GPS Coordinate Latitude: 33.997351; GPS Coordinate Longitude: -86.008322.

**Little River Canyon Center**, located in Fort Payne, Alabama in Dekalb and Cherokee Counties. The contact is Larry Beane; 256-845-9605 or larry_beane@nps.gov of the National Park Service and is managed by Jacksonville State University. A second contact is Niki Parrot-Wayner at Jacksonville State University – 256-845-3548 or jwayner@jsu.edu. The facility has restrooms, a covered pavilion for 40 – 100; drinks only – no food is available; has a gift shop and is suitable for grades 3-8. The facility is staffed and open 8 am – 4 pm. Car and bus parking are available. No fees are charged if reservations are made through Larry Beans; however if educational programming is requested, reservations must be made through Niki Parrot-Wayner at Jacksonville State University at 256-845-3548 or jwayner@jsu.edu. GPS Coordinate Latitude: 34.398736; GPS Coordinate Longitude: -85.634373.

**Mountain Longleaf National Wildlife Refuge**, located in Anniston, Alabama in Calhoun County. Contact is Keith Westlake; 256-848-6833 or Donald_westlake@fws.gov. The facility is managed by the U. S. Fish & Wildlife. The facility is staffed, does not have restrooms, food or drink; gift shop or a covered pavilion, but has an overlook. The site holds 50 people; offers no bus parking, and requires a 4-wheel drive vehicle, but is suitable for a grades 3 – 8. Contact Keith Westlake for educational programming at 256-848-6833 or Donald_westlake@fws.gov. The facility is open from 7 am – 3:30 pm. GPS Coordinate Latitude: 33.7184; GPS Coordinate Longitude: -85.7092.

**Palisades Park**, located in Oneonta, Alabama in Blount County. The contact is John Bullard, 205-625-6868x 1 or jbullard@blountcountyal.gov. A second contact is the Park Manager, Jeff Todd at 205-274-0017 The facility is staffed, has restrooms, a covered pavilion that holds 200+, no food, drinks or a gift shop are available, but does have bus parking and is suitable for a teacher-guided tour for grades 3-8. Educational programming is available by contacting Jeff Todd, the Park Manager at 205-274-0017. The facility is open from 9 am – 5 pm. GPS Coordinate Latitude: 33.996319; GPS Coordinate Longitude: -86.414852.

**Oak Mountain State Park**, located in Pelham, Alabama in Shelby County. The contact is Scottie Jackson at the AL Wildlife Center; 205-663-7930 or sjackson@awrc.org. A second contact is David Frings at the Oak Mountain Interpretive Center; dmfings@samford.edu. The facility is managed by the Alabama Wildlife Center and the Oak Mountain Interpretive Center. The facility is staffed and has restrooms, a covered pavilion that holds 100+, a gift shop and is suitable a day trip grades 3 – 8. Bus and car parking are available; food and drinks are not available. The facility is open 9 am – 5 pm. Fees are required: to make reservations, contact Scottie Jackson: sjackson@awrc.org or David Frings: dmfings@samford.edu Fees: 3 and under free; 4 - 11 $2; 12-61 $5; 62 up $2; David Frings: contact: dmfings@samford.edu. GPS Coordinate Latitude: 33.22058; GPS Coordinate Longitude: -86.751468.

**Ruffner Mountain**, located in Birmingham, Alabama in Jefferson County. The contact is Christine Johnston, 205-833-8264 or Christine@ruffnermountain.org. The facility is privately funded and managed. The facility is staffed and has restrooms, and covered pavilions as well as an indoor classroom that holds 75 – 100; bus parking is available. No food/drink is available, but a small gift shop. For educational programming contact: Christine Johnston, 205-833-8264 or Christine@ruffnermountain.org. The facility is open from 9 am – 5 pm. GPS Coordinate Latitude: 33.558207; GPS Coordinate Longitude: -86.707493.

**Talladega Mountain Natural Resource Center**, located in Heflin, Alabama in Cleburne County. The facility is managed by Jacksonville State University and the Talladega National Forest. The contact is Kim Brown, Interim Administrator; 256-463-3827. A second contact is Jean Hemby; 256-463-3899. The facility is staffed, has restrooms, a covered pavilion that holds 100 and bus parking; NO food/drink or gift shop. For educational
programing contact Pete Conroy at Jacksonville State University; 256-282-5784 or pconroy@jsu.edu. The facility is open from 9 am – 5 pm. GPS Coordinate Latitude: 33.6691225; GPS Coordinate Longitude: -85.5612527.

Piedmont Plateau Birding Trail

Confederate Memorial Park, located in Marbury, Alabama in Chilton County. The facility is a Historic Site. The contact is Bill Rambo; 205-755-1990; alacmp@bellsouth.net; A second contact is Calvin Chappelle, 205-755-1990; Chappelle.cmp@gmail.com. The facility is staffed, has restrooms, covered pavilion that holds 200+, bus parking and is suitable for grades 3 – 8. There is no food/drinks, but does have a gift shop on site. Fees: $2/per to tour Museum; outside events are free; contact Bill Rambo or Calvin Chappelle for reservations at 205-755-1990. The facility is open from 9 am – 4:30 pm. GPS Coordinate Latitude: 32.7190089; GPS Coordinate Longitude: -86.473942.

Fort Toulouse is located in Wetumpka, Alabama in Elmore County. The facility is a Historic site. The contact is Ove Jensen, 334-567-3002; ove.jensenahc@gmail.com. The facility is staffed, has restrooms, covered pavilion that holds 50 – 60; bus parking; and a small gift shop. There is no food and drink available on site. Fees: are $1 per person; or educational programming and reservations, contact Ove Jensen; ove.jensenahc@gmail.com. The facility is open from 8 am – 5 pm. GPS Coordinate Latitude: 32.5085368; GPS Coordinate Longitude: -86.2510403.

Horsheshoe Bend National Military Park, is located in Daviston, Alabama in Tallapoosa County. The facility is a National Military Park. Contact is Eric Frey, 256-234-7111 or eric_frey@nps.gov. The facility is staffed,, has restrooms, covered pavilion that holds 200+, has bus parking, and a gift shop. No food or drink are available. There is no entrance fee. For educational programming and to make reservations, contact Eric Frey, 256-234-7111 or eric_frey@nps.gov. The facility is open from 9 am – 4:30 pm. GPS Coordinate Latitude: 32.9795086; GPS Coordinate Longitude: -85.736777.

Opelika Wood Duck Heritage Preserve, is located in Opelika, Alabama in Lee County. The facility is managed by the Wood Duck Heritage Preserve. The contact is Gene Hunter, 334-705-5560, hunters56@earthlink.net. A second contact is Matt Battles; 334-705-5549; mbattles@opelika-al.gov. The facility is not staffed, has portable restrooms; a covered pavilion that holds 50 – 100, bus parking and is suitable for grades 3 – 8. There is no entrance fee, no food or drink availability and no gift shop. For educational programming through the “Friends of Duck Park”, contact Matt Battles, 334-705-5547. The facility is open dawn to dusk. GPS Coordinate Latitude: 32.39231; GPS Coordinate Longitude: -85.25849.

Southern Union State Community College, is located in Wadley, Alabama in Randolph County. The contact is Shondae Brown, 256-395-2211 or 334-756-4151 or sbrown@suscc.edu. The facility is staffed, has restrooms, food and drink availability, parking for school bus and is appropriate for grades 3 – 8. There is no Fee. There is no pavilion for this site and no gift shop. The hours of the facility are 8 am – 4 pm Monday through Thursday. GPS Coordinate Latitude: 33.1265227; GPS Coordinate Longitude: -85.571199.

Black Belt Birding Trail

Chilatchee Creek Park, is located in Alberta, Alabama in Wilcox County. The facility is managed by the US Army Corps of Engineers. The contact is Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is staffed, has restrooms, a covered pavilion that holds 100 and car and bus parking. There is no Fee, food/drink availability, or gift shop. The facility is appropriate for grades 3 – 8. For educational programming and to make a
reservation, contact Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is open from 8 am – 4 pm. **GPS Coordinate Latitude:** 32.143268; **GPS Coordinate Longitude:** -87.288635.

**Holy Grounds Battlefield Park**, located in Haneyville, Alabama in Lowndes County. The facility is managed by the US Army Corps of Engineers. The contact is Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is not staffed, has restrooms, a covered pavilion that holds 250 and has car and bus parking. There is no Fee, and is appropriate for grades 3 – 8. There is no food/drink availability, or gift shop. For educational programming and to make a reservation, contact Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is open from April 1 - Labor Day from 8 am – 4 pm. **GPS Coordinate Latitude:** N 32.345669; **GPS Coordinate Longitude:** -86.679904.

**Foscue Creek Park**, located in Demopolis, Alabama in Marengo County. The facility is managed by the U. S. Corps of Engineers. The contact is Chip Dixon, 334-289-3540 or Larry.e.dixonII@usace.army.mil. The facility is staffed, has restrooms, a covered pavilion that holds 200, bus parking and is suitable for grades 3 – 8. There is no Fee, food/drink availability or gift shop. For educational programming or to make a reservation contact: Chip Dixon, 334-289-3540 or Larry.e.dixonII@usace.army.mil. The facility is open from dusk to dawn. **GPS Coordinate Latitude:** 32.512838; **GPS Coordinate Longitude:** -87.87181.

**Lake Livingston**, is located in Livingston, Alabama in Sumter County. The facility is managed by the University of West Alabama. The contact is Robby Limerick, 205-652-9266 or lrr@uwa.edu. A second contact is Tina Jones, 205-652-3833 or tnj@uwa.edu. The facility is staffed, has restrooms, a covered pavilion that holds 50, car and bus parking and is suitable for grades 3 – 8. There is no food/drink availability or gift shop. For a Fee schedule, to make reservations and schedule educational programming, contact: Robby Limerick, 205-652-9266 or Tina Jones, 205-652-3833. **GPS Coordinate Latitude:** 32.602958; **GPS Coordinate Longitude:** -88.189811.

**Montgomery Zoo**, is located in Montgomery, Alabama in Montgomery County. The contact for school programming is Suzie Fontaine, 334-240-4904 or sfontaine@montgomeryal.gov. For reservations, contact the Reservations Office at 334-625-4900. The facility is staffed, has restrooms, a covered pavilion that holds 80, food and drink availability and a gift shop. There is a Fee, e-mail montgomeryzoo.com for fee schedule. For educational programming, contact: Suzie Fontaine, 334-240-4904 or sfontaine@montgomeryal.gov. The facility is open from 9 am – 5 pm. **GPS Coordinate Latitude:** N 32.418986; **GPS Coordinate Longitude:** W -86.274955.

**Old Cahawba**, is located in Orrville, Alabama in Dallas County. The organization is managed by Linda Derry, 334-872-8058. A second contact is Jonathan Matthews, Assistant Site Director, 334-872-8058; cahawbaM@bellsouth.net. The facility is staffed, has restrooms, covered pavilion, and has a wagon tour that holds 30. The facility has car and bus parking, vending machines and a small gift shop. Fee: Admission $1 under 18; $2 over 18; walking tours and step-on guide tours are $8; Wagon tours available - minimum of $150 – Contact Jonathan Matthews, Assistant Site Director, 334-872-8058; cahawbaM@bellsouth.net for reservations and to schedule educational programming. The facility is open Thursday - Monday - 12 noon - 5 pm. **GPS Coordinate Latitude:** N 32.32963; **GPS Coordinate Longitude:** W -87.10463.

**Sherling Lake Park**, is located in Greenville, Alabama in Butler County. The contact is Bill Smith, 334-382-3638 (Campground Park Number). A second contact is Mike Watson, 334-382-3638. The facility is staffed, has restrooms, covered pavilion that holds 40 – 50; has car and bus parking. No educational programming is available, no food/drink availability and no gift shop. Fee for the pavilion is $60, reservations must be confirmed with Bill Smith or Mike Watson at 334-382-3638 (Campground Park Number). The facility is open 7 am – 4:30 pm. **GPS Coordinate Latitude:** N 31.896729; **GPS Coordinate Longitude:** W -86.67264.

**Spillway Falls Park**, is located in Demopolis, Alabama in Marengo County. The facility is managed by the U. S. Army Corps of Engineers. The contact is Chip Dixon, 334-289-3540 or Larry.e.dixonII@usace.army.mil. The facility
is staffed, has restrooms, covered pavilion that holds 125+. There is no Fee, food/drink availability or gift shop. For educational programming or to make a reservation contact: Chip Dixon, 334-289-3540 or Larry.e.dixonII@usace.army.mil or the Park Manager. The facility is open from 6 am – 10 pm. GPS Coordinate Latitude: N 32.52032; GPS Coordinate Longitude: W -87.884865.

Tuskegee National Forest, is located in Tuskegee, Alabama in Macon County. The facility is a National Forest. The contact is Drew Brown, 334-727-2652 or andrewbrown@fs.fed.us. A second contact is Cameron Seals, 334-727-2652. The facility is staffed, has restrooms, a covered pavilion that holds 100, car and bus parking, and is suitable for grades 3 – 8. To inquire about educational programming, contact Drew Brown, 334-727-2652 or andrewbrown@fs.fed.us. There is no gift shop, food/drink availability. The hours of the facility are: 9 am – 5 pm. GPS Coordinate Latitude: 32.46835; GPS Coordinate Longitude: -85.57703.

Pineywoods Birding Trail

Bashi Creek, is located in Morvin, Alabama in Clarke County. The facility is managed by the U. S. Army Corps of Engineers. The contact is Chip Dixon, 334-289-3540 or Larry.e.dixonII@usace.army.mil. The facility does not have, a covered pavilion, no bus parking, no food/drink availability or gift shop. For educational programming or to make a reservation contact: Chip Dixon, 334-289-3540 or Larry.e.dixonII@usace.army.mil or the Park Manager. The facility is open from 9 am – 5 pm. GPS Coordinate Latitude: N 32.46835; GPS Coordinate Longitude: -85.57703.

Claiborne Dam East, is located in Monroeville, Alabama in Monroe County. The facility is managed by the US Army Corps of Engineers. The contact is Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is staffed, has restrooms, a covered pavilion that holds 200 and has car and bus parking. There is no Fee, and is appropriate for grades 3 – 8. There is no food/drink availability, or gift shop. For educational programming and to make a reservation, contact Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is open 8 am – 4 pm. GPS Coordinate Latitude: N 31° 36.960; GPS Coordinate Longitude: W 87° 32.445.

Haines Island Park, is located in Monroeville, Alabama in Monroe County. The facility is managed by the US Army Corps of Engineers. The contact is Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is not staffed, has restrooms, no covered pavilion, and has car and bus parking on a dirt road. There is no Fee, and is appropriate for grades 3 – 8. There is no food/drink availability, or gift shop. For educational programming and to make a reservation, contact Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is open 8 am – 4 pm. GPS Coordinate Latitude: N 31° 43.248; GPS Coordinate Longitude: W 87° 27.791.

Little River State Forest, is located in Atmore, Alabama in Escambia County. The facility is managed by Alabama Forestry Commission. The contact is Pamela Bradley, 251-743-2350 or pamela.bradley@forestry.alabama.gov. The facility is not staffed, has restrooms, a covered pavilion that holds 100+ and has car and bus parking. There is a Fee, contact Pamela Bradley, 251-743-2350 or pamela.bradley@forestry.alabama.gov to make a reservation. The facility is appropriate for grades 3 – 8. There is no food/drink availability, or gift shop. The facility is open from 8 am – 5 pm. GPS Coordinate Latitude: N 31° 15.488; GPS Coordinate Longitude: W 87° 29.234’.

Old St. Stephens, is located in St. Stephens, Alabama in Washington County. The facility is a historical site. The contact is Jennifer Faith, Park Director, 251-247-2622, jenniferfsmith@att.net. The facility is staffed, has restrooms, a covered pavilion that holds 50 – 200, and has car and bus parking. There is a Fee, adult $3; children 11 and under $2 contact Jennifer Faith, Park Director, 251-247-2622, jenniferfsmith@att.net to make a reservation. The facility is appropriate for grades 3 – 8. There are vending machines and a gift shop. The facility is open from 9 am – 5 pm. GPS Coordinate Latitude: 31.33068; GPS Coordinate Longitude: -88.03058.
Silver Creek Park, is located in Grove Hill, Alabama in Clarke County. The facility is managed by the US Army Corps of Engineers. The contact is Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is not staffed, has restrooms, a covered pavilion that holds 100, and has car and bus parking. There is no Fee, and is appropriate for grades 3 – 8. There is no food/drink availability, or gift shop. For educational programming and to make a reservation, contact Frank McIntosh, 334-872-9554; henry.f.mcintosh@usace.army.mil. The facility is open 8 am – 4 pm. **GPS Coordinate Latitude: N 31° 39.760’; GPS Coordinate Longitude: W 87° 34.729’**.

Wiregrass Birding Trail

Florala Wetlands Park, is located in Florala, Alabama in Covington County. The contact is Wade Masters, Park Manager, 334-858-6425 or lakejacksonrv@gmail.com. The facility is staffed, has restrooms, a covered pavilion that holds 30+ and has car and bus parking. There is no Fee, and is appropriate for grades 3 – 8. There is no food/drink availability, or gift shop and no educational programming. To make a reservation, contact Wade Masters, Park Manager, 334-858-6425 or lakejacksonrv@gmail.com. The facility is open daylight to dawn. **GPS Coordinate Latitude: 31.0027462; GPS Coordinate Longitude: -86.3262676.**

Lakepoint State Park Resort, is located in Eufaula, Alabama in Barbour County. The facility is an Alabama State Park. The contact is Sone Kornegay, Sales Director, 800-544-5253 or sone.kornegay@dcnr.alabama.gov. A second contact is Rhonda Rachel 1-800-544-5253. The facility is staffed, has restrooms, a covered pavilion that holds 50 – 100 and has car and bus parking. There is a Fee, contact: Sone Kornegay, Sales Director, 800-544-5253 or sone.kornegay@dcnr.alabama.gov to make reservations and schedule educational programming. There is food/drink availability, and a gift shop. The facility is open from 9 am – 5 pm. **GPS Coordinate Latitude: 31.985877; GPS Coordinate Longitude: -85.1087675.**

Landmark Park, is located in Dothan, Alabama in Houston County. The facility is privately owned. The contact is Anna Holman, Education Director, 334-794-3452, anna@landmarkparkdothan.com. A second contact is William Holman, wmholman@landmarkparkdothan.com. The facility is staffed, has restrooms, a covered pavilion that holds 10 – 500 and has car and bus parking. There is a Fee, and is appropriate for grades 3 – 8. Contact Anna Holman, Education Director, 334-794-3452, anna@landmarkparkdothan.com for a fee schedule, to make reservations and schedule educational programming. There is food/drink availability and a gift shop. The facility is open from 9 am – 5 pm. **GPS Coordinate Latitude: 31.2903269; GPS Coordinate Longitude: -85.367728.**

Walter F. George Dam, is located in Abbeville, Alabama in Henry County. The facility is managed by the US Army Corps of Engineers. The contact is Ranger Shannon Schaefer, 229-768-2516, shannon.L.schaefer@usace.army.mil. A second contact is: Sara Jernigan, Natural Resource Manager, Fort Gaines, GA 229-768-2516, Sara.G.Jernigan@usace.army.mil. The facility at Highland Park Gatehouse is staffed weekends April through Thanksgiving weekend. The Main office is staffed weekdays, except major holidays year round; Weekends May – September. The facility has restrooms, a covered pavilion at Highland Park (must be reserved) that holds 100, and has car and bus parking. There is no entrance fee, however, call ahead to make arrangements (at Highland Park, for most events there is a shelter rental fee of $75.00 for the day; this fee may be waived by special arrangement for school groups when the shelter is available. For hours of the facility: visit the website: [http://www.alabamaforeverwild.com](http://www.alabamaforeverwild.com) for a schedule of facility hours. Alternatively, the Wehle Tract is open to the public daily at the trailhead. **GPS Coordinate Latitude: 30.032148; GPS Coordinate Longitude: -85.456321**

**Yoholo Micco Park**, is located in Eufaula, Alabama in Barbour County. The facility is owned and managed by the City of Eufaula, Alabama. The contact is Sherry Burchett, Horticulturist - City of Eufaula, 334-695-1718 (cell), or sburchett@eufaula.rr.com. The facility is not staffed, but arrangements can be made for tours and educational programming by contacting Ms. Burchett. The facility does not have restrooms, but are located just across the street. The facility does not have a covered pavilion, but one is available near the park. The park is in the middle of town, so food/drink and shopping are available within easy walking distance. There is no fee, and the park is open dusk to dawn. **GPS Coordinate Latitude: 31.8932043; GPS Coordinate Longitude: -85.1402794.**
The Alabama Birding Trails is a partnership of the Alabama Birding Trails, Alabama Department of Conservation and Natural Resources, The University of Alabama Center for Economic Development, and Birmingham Audubon. This project was made possible in part by the Alabama Association of Resource Conservation and Development Councils, the Alabama Tourism Department and many volunteers across Alabama. To learn more about the Alabama Birding Trails program, please contact The University of Alabama Center for Economic Development, 205-348-7058 or visit the website: http://www.alabamabirdingtrails.com/
ECONOMIC IMPACT OF BIRDING
Over 15 years in the making, the system of eight trails highlights the best public locations available to watch birds year-round. Interest in wildlife observation continues to grow, and more and more people want to explore our amazing biodiversity, which makes us second only to Florida in the Eastern U.S. in total number of species of plants and animals. The Birding Trails project provides a major attraction for nature-loving tourists, while offering exciting birding opportunities for Alabama’s school groups, families, and seasoned birders.

The eight Alabama Birding Trails unify existing and potential birding sites into a series of cohesive trails and loops that are collectively marketed as part of a state-wide system. Many of the sites along the various trails are already being used by thousands of birders and other visitors annually.

The University of Alabama Center for Economic Development (UCED) is providing the leadership role of facilitation and project scope; The Alabama Department of Conservation and Natural Resources is providing their depth of knowledge relative to wildlife habitat, birding and previous birding trails experience; The Birmingham Audubon Society has provided experience that only deeply knowledgeable birders could. The Alabama Tourism Department and the Alabama Association of RC&D Councils and UCED have provided funding for the project; Chambers of Commerce across the state have taken great pride in the project, as have our Federal partners, the U.S. Army Corps of Engineers, National Forest Service and others.

Economic Impact of Alabama Birding Trails

$734 million in state expenditures on wildlife watching by residents

$813 million total expenditures on wildlife watching by residents

Economic Impact of Birding Nationally

46.7 million bird-observers nationwide

$17.27 million trip-related expenditures nationwide

*Source U.S. Fish and Wildlife 2011 National Survey of Fishing, Hunting, and Wildlife-Associated Recreation

The South in general has substantially more interest in birding than the rest of the country with 34% overall interest, followed by the Midwest at 24%.
ALABAMA BIRD POSTERS
Alabama’s habitat diversity is nearly unmatched, providing critical habitat for over four hundred species of birds, including the birds pictured above, which are all fairly abundant in Alabama. Some of the birds shown above can be found throughout Alabama, others only on the coast, north Alabama or in the middle of the state. Interest in wildlife observation continues to grow, and more people nationwide are discovering Alabama’s amazing biodiversity, which is second only to Florida in the Eastern U.S. in total number of species of plants and animals.

Over 10 years in the making with over 250 sites around Alabama, the Alabama Birding Trails project highlights the best public locations available to watch birds year-round. Learn more about birds and birding by visiting our website: alabamabirdingtrails.com

Raptors hunt other animals, including small mammals, fish, and other birds, for food. Raptors are often called birds of prey, and have sharp talons and hooked bills that they use to capture and eat. Raptors are typically larger than common songbirds, but there are exceptions. In addition to the hunting species, two species of carrion eaters, the vultures, are also included as raptors.

Over 10 years in the making with over 250 sites around Alabama, the Alabama Birding Trails project highlights the best public locations available to watch birds year-round. Learn more about birds and birding by visiting our website.

Wading birds are usually found in marshes, swamps, and shallow bodies of water. All of them use their long legs and bills to probe in the water and soft mud for food, but their preferred foods are very different. The Roseate Spoonbill eats very small crustaceans, frogs and fish that most waders would ignore, while the Great Blue Heron eats anything that will fit down its throat! This poster includes the 17 birds commonly known as wading birds. Three of Alabama’s larger shorebirds are denoted with an asterisk (*). While not in the wading bird family, these birds do forage by wading in marshes and along shorelines.

Over 10 years in the making with over 250 sites around Alabama, the Alabama Birding Trails project highlights the best public locations available to watch birds year-round. Learn more about birds and birding by visiting our website.

COMMON ALABAMA BIRDS FLASH CARDS
Eastern Bluebird

Common in all seasons and regions.

The Eastern bluebird is a small thrush size bird standing six to eight inches tall and weighs about 1 ounce. They have a wingspan of 10 to 13 inches with no noticeable size difference between sexes. Males have a dark blue tail and wings with a bright reddish colored chest. Females are drab gray-blue with a duller reddish chest.

FUN FACT: Some research suggests they use star patterns as one means of navigation.

FUN FACT: A bluebird can spot caterpillars & insects in tall grass over 50 yards away.

Killdeer

Killdeer are one of the best known American shorebirds. Sexes are outwardly alike and about the same size. They are 9 to 11 inches long with a wingspan of 19 to 21 inches. They are gray-brown above with white below distinguished by two black bands across the chest. They are distinguished by their loud cry of kill-dee kill-deer or kill-deeah.

FUN FACT: Killdeer are known for their broken-wing display, an attempt to lure predators away from a nest by feigning injury.

White-throated Sparrow

White-throated Sparrows measure 6 to 7.5 inches in length with a wingspan of 9 inches. They have white throat markings and yellow lores (the surface on either side of the head between the eye and the upper base of the beak). You can usually find them foraging on the ground under or near thickets or in low vegetation. They mainly eat seeds, insects and berries, and are attracted to bird feeders.

FUN FACT: Some research suggests they use star patterns as one means of navigation.
Laughing Gull

The Laughing Gull is a smallish gull. Its black head is very noticeable in the breeding adult. Laughing Gulls are common along the gulf coast, and rare inland. They are adept in human-altered habitats and can be found scavenging in parking lots and dumpsters.

FUN FACT: Laughing Gulls form colonies up to 25,000 pairs in size. Sometimes they are joined by species such as terns, larger gulls, Black Skimmers, and American Oystercatchers.

Northern Flicker

The northern flicker is Alabama’s state bird, often referred to as the “Yellow-hammer.”

Northern Flickers have a conspicuous white rump that can be seen when the bird is in its deeply undulating flight. The yellow-shafted flicker has a red patch on the nape of the neck. Under the tail and wings, a bright yellow can be seen giving the flicker the name yellow-shafted.

FUN FACT: The males have a black mustache or line at the base of the bill.

Brown Pelican

The brown pelican is a fairly large water bird weighing up to eight pounds and can have a wing span of over seven feet. The adult is dark gray to silver in coloration, with a white and brown head and a light yellow crown. Pelicans have long bills with an expandable pouch that is three times the size of their stomach, short legs and webbed feet.

FUN FACT: Brown Pelicans make their spectacular dives into the water from as high as 65 feet.
Northern Mockingbird

The northern mockingbird is a medium-sized songbird with long legs, a long tail, and a slightly curved bill. The grayish-brown color, two parallel white wing bars and broad white wing patch, which are easily seen in flight, distinguish this bird from its cousins the brown thrasher and the catbird.

FUN FACT: A Northern Mockingbird may sing over 200 different songs. It continues to learn new songs throughout its nearly 10 year life-span.

Northern Cardinal

Northern cardinals are a medium-sized songbird well known for their brilliant red coloration and beautiful songs. Males are nearly all brilliant red in color with a conical shaped bill that is surrounded by a black mask. Cardinals also have a long tail and a distinctive crest of feathers atop their heads. The female cardinal is a buff brown with red on their crest, wings, and tail.

FUN FACT: Both male and female Cardinals sing. When a female Cardinal sings from the nest, it usually means she’s telling the male she needs more food.

Red-tailed Hawk

The red-tailed is the largest hawk in Alabama, averaging between two and four pounds. Females are larger than the males. The wingspan of an adult bird can be four to four and one-half feet. Adults are identified by their rusty or rufous colored tail feathers. Immature birds lack this colored tail until the second year when rusty feathers molt into place.

FUN FACT: Red-tailed hawks often mate for life. The pair builds a stick nest high above the ground, typically in a tree.
**Eastern Towhee**

The adult male Eastern Towhee has a black head, throat, upper chest, and back. The tail is also black with conspicuous white patches at the tips of the outside tail feathers. Most of the breast and the abdomen is white. The sides and beneath the tail area are rufous (rust-colored) giving rise to the bird's former name the Rufous-Sided Towhee. The adult female is colored similar to the male but has shades of brown where the male is black.

**Fun Fact:** Towhees are ground feeders and use a hop-and-scratch foraging method.

---

**Carolina Wren**

The Carolina wren is a small bird approximately five and one-half inches in length with a deep rusty-brown colored back, buff colored underside, light colored throat and prominent white stripe above and beyond the eye. A Carolina wren’s call is a loud melodious whistled “TEA-kettle TEA-kettle” or “cherry cherry cherry.”

**Fun Fact:** Carolina wrens do not pair only during breeding season but form bonds anytime of the year. After finding a partner the two birds are paired for life.

---

**Ruby-throated Hummingbird**

Ruby-throated Hummingbirds are 3 to 3 ½ inches long with a wingspread of 4 to 4 ¾ inches. Both sexes are metallic green above and grayish underneath. Adult males have throat feathers that appear black but flash fiery red or orange in the sun. Males have a slightly forked tail. Females have white throat patches and their tails are not forked.

**Fun Fact:** Ruby-throated Hummingbirds prefer to feed on red or orange flowers (but don’t color the sugar water you put in a hummingbird feeder).
Cedar Waxwing

Cedar Waxwings are brown, gray, with bright red on their wing feathers and yellow along the tip of their tail. They also have a “mask” of black around their eye. They can be found in flocks of over 100 birds during winter months in trees and shrubs that produce fruits, such as hackberry, red mulberry, eastern red cedar, black cherry, and American holly.

FUN FACT: Cedar Waxwings are named for the waxy red tips on the end of their feathers. The number and size of the wax tips increase as the bird ages.

American Robin

The American Robin is a large thrush. Their wings and back are gray and its under parts are brick-red. The birds head is a dark gray. They are regularly seen hopping and running in lawns and fields. They are known for their worm-hunting skills.

FUN FACT: The diet of the American Robin consists of 40 percent small invertebrates (mainly insects), such as earthworms, beetle grubs, caterpillars and grasshoppers, and 60 percent wild and cultivated fruits and berries.

Bald Eagle

The Bald Eagle is one of North America’s largest raptors with adult females reaching weights of 14 pounds and standing 42 inches tall. Adult males are slightly smaller. The bright white head and tail contrasted against dark body feathers are key characteristics used to identify the bald eagle. However, these white feathers as well as the yellow color of the bill do not develop until the eagles reach about five years of age.

FUN FACT: Bald eagles build very large nests, sometimes weighing as much as a ton!
Great Blue Heron

A large (four foot tall bird with six foot wingspan) lean, slate-gray colored heron with a white head and black stripe extending above the eye; a dagger-like bill and long legs. Breeding adults have ornate plumes on the head, neck and back. All herons fly with their neck folded. This distinguishes them from cranes, geese, ibises, and storks, which fly with neck extended.

FUN FACT: Great blue herons nest in colonies called heronries. Some colonies have more than 500 nests in them! The birds return to the same spots each year.

Tufted Titmouse

The Tufted Titmouse is a little gray bird with an loud voice, the Tufted Titmouse is common in Alabama's forests and a regular visitor to feeders. With large black eyes, a small, round bill, and brushy crest, this bird is a perennial favorite. Their song is a fast-repeated, clear whistle: peter-peter-peter.

FUN FACT: The Tufted Titmouse is a hoarder of food in fall and winter, taking advantage of a bird feeder’s bounty by storing many seeds, usually within 130 feet of the feeder.

Brown Thrasher

The brown thrasher has a long tail, short wings, and a slender, somewhat curved bill. It is a rich rufous brown on its head, back, and tail, with heavy rufous streaking on a cream color underside. The wings are rufous brown with two white bars on each wing. It has yellow eyes. Adults are about 11.5 inches in length.

FUN FACT: Brown Thrashers are may sing over 1,100 different song types and include imitations of other birds, including Chuck-will’s-widows and Northern Flickers.
Red-bellied Woodpecker

The Red-bellied Woodpecker is the most common woodpecker in the southeast. As its name indicates, the belly is light red, but is often hard to see. Males also have red on the top of the head and neck. Females lack the red coloration on their head. The back is prominently striped horizontally with black and white barring.

FUN FACT: A Red-bellied Woodpecker can stick out its tongue nearly 2 inches past the end of its beak. The tip is barbed and the bird’s spit is sticky, making it easier to snatch prey from deep crevices.

Bird Watching Tips

- Respect wildlife homes—leave nests, nest boxes and their occupants as you found them.
- In no-hunt areas, blend in with your surroundings—wear neutral-colored clothing and move slowly and quietly.
- Share your lunch only with other humans.
- Limit the use of recordings, calls, or whistles to attract birds.
- Use binoculars or a spotting scope so you can view birds from a distance.
- Leave pets at home.
- Obtain permission before birding on private land.

REGIONAL TRAILS
RACK CARDS
The Piney Woods Birding Trail links 22 outstanding birding sites in Washington, Clarke, Monroe, Conecuh, and Escambia Counties in southwest Alabama.

Soaring Swallow-tailed Kites share the skies each spring and summer with a variety of resident raptors. Waterfowl share our lakes and ponds each winter and Bald Eagles, herons and more live here year-round.

The bird habitat is as varied as the people: from a canoe trail along a lazy river to the ruins of the territorial capital of Alabama, an educational facility with longleaf forest and small, but productive lakes, the Piney Woods offers a glimpse into the heart of Alabama.

Get out and explore!

Don’t miss these locations along the trail:
- J. Emmett Woods Public Fishing Lake (Washington County)
- Old St. Stephens Historical Park (Washington County)
- Monroe County Lake (Monroe County)
- Iron Bridge access to the Sepulga River Canoe Trail (Conecuh County)
- Old Lock 1 Park (Clarke County)
- Solon Dixon Forestry Education Center (Covington & Escambia Counties)

www.alabamabirdingtrails.com

The Black Belt Birding Trail consists of 32 sites that stretch along a narrow swath of 11 counties across the south-central part of Alabama’s rural farm country all the way from Georgia to Mississippi.

With locations as varied as boat ramps for launching a canoe to explore the deep recesses of one of Alabama’s river systems, to state parks, National Wildlife Refuges and city parks, and even the grounds of a park dedicated to live theater, there is much to see and do.

Wood Storks and Mississippi and Swallow-tailed Kites dot the skies each summer. Warblers pass through each spring and fall along their migration routes. Bald Eagles, herons and so much more live here year-round.

Get out and explore!

Don’t miss these locations along the trail:
- Choctaw National Wildlife Refuge (Choctaw County)
- Gee’s Bend Park (Wilcox County)
- Holy Ground Battlefield Park (Lowndes County)
- Old Cahawba Archaeological Park (Dallas County)
- Lake Livingston (Sumter County)
- Perry Lakes Park (Perry County)
- Tuskegee National Forest (Macon County)
- Foscue Creek Park (Marengo County)
- Phenix City Riverwalk (Russell County)
- Sherling Lake Park (Butler County)
- Gunter Hill Park (Montgomery County)

find detailed descriptions & maps online

www.alabamabirdingtrails.com
From the forested hills of the Ridge and Valley region to the rich pastures and farmlands of its river-carved valleys, the Appalachian Highlands Birding Trail provides a wide diversity of habitats for birds, including the endangered Red-cockaded Woodpecker. Especially noteworthy for bird-lovers are the many rivers that flow through this region, including the Black Warrior, the Cahaba, the Coosa, and the Tallapoosa.

Soaring Bald Eagles share the rolling terrain with a variety of hawks and owls. Colorful warblers and other migrating songbirds pass through each spring and fall, many staying to nest during the summer. Waterfowl are plentiful on our lakes and ponds each winter, and wading herons and egrets can be found year-round.

With Alabama’s highest mountain and the deepest gorge east of the Mississippi, the Appalachian Highlands Birding Trail is noted for its scenic beauty. Rich hardwood forests, abundant rivers and lakes, lush meadows framed by steep mountain ridges—you’ll find them all here. And along the way, you’ll find some amazing birding, as well!

Get out and explore!

Don’t miss these locations:

- **Palisades Park** (Blount County) sits atop a rocky ridge with sweeping views of countryside. The wooded park offers good birding year-round, and good views of migrating hawks each fall.

- **Mountain Longleaf National Wildlife Refuge’s** (Calhoun County) 9,000 acres have resident Brown-headed Nuthatches and Bachman’s Sparrows in woodlands dominated by Longleaf Pines.

- **Cherokee Rock Village** (Cherokee County) Scarlet Tanagers are frequent here through migration and breeding season. Raptors are regulars to the ridgeline, and beautiful Weiss Lake below is a wading bird magnet.

- **Coleman Lake**: Talladega National Forest (Cleburne County) is a significant birding site in AL, and boasts roadside looks at endangered Red-cockaded Woodpeckers. Red Crossbills breed here each summer.

- **James D. Martin Wildlife Park’s** (Etowah County) shoreline trail connects to boardwalks that lead out to several wooded islands in a 300-acre lake with views of wintering waterfowl and an active heron rookery each spring and summer.

- **Birmingham Botanical Gardens** (Jefferson County) has a scenery of rich and varied plant species that offers one of the best and most-visited sites for songbirds in the area, particularly in spring and fall migration.

- **Limestone Park’s** (Shelby County) combination of wetlands, grasslands, and Tupelo Gum swamp makes it a year-round hotspot for wading birds, swamp and marsh birds, grassland species, and for waterfowl in winter.

- **Neely Henry Dam** (St. Clair County) on the Coosa River has wintering ducks, grebes, and gulls, plus occasional Bald Eagles, while spring and summer bring nesting colonies of wading birds.

- **Kymulga Covered Bridge** (Talladega County) is an historic country park, with huge, old trees lining the banks of Talladega Creek. It is a migrant magnet in spring and fall. Be sure to enjoy the covered bridge and grist mill.

www.alabamabirdingtrails.com
Piedmont Plateau Birding Trail

Come explore this East Central Alabama birding trail found in Autauga, Chambers, Chilton, Clay, Coosa, Elmore, Lee, Randolph, Tallapoosa counties.

You may spot an endangered Red-cockaded Woodpecker, a soaring Bald Eagle or a host of visiting warblers. The shorelines of our lakes are filled with herons, egrets and other waders. Our mountain vistas thrill with soaring raptors. Osprey and ducks enjoy our deep waters.

The Piedmont Plateau Birding Trail has 34 sites, from Cheaha State Park, atop Alabama’s highest mountain, to the shores of Lake Martin, the state’s first Treasured Alabama Lake.

The bird habitat found here is as varied as the scenery. From a paved walking trail in the middle of a city park to an adventurous float down a scenic river or exploring historic forts and battlefields, you’ll find an activity that fits your interest.

Get out and explore!

34 Sites in 9 Counties = Great Alabama Birding

Find detailed descriptions & maps online

www.alabamabirdingtrails.com
With 28 sites in a 9-county region in West Alabama, you’ll find forests and prairies, big lakes and free-flowing rivers, where abundant year-round birds are joined by a flow of migrants that change with the seasons. From the Cahaba River National Wildlife Refuge to the campus of the University of Alabama, and including the ruins of two Civil War-era ironworks and the Talladega National Forest, prepare for the unexpected.

Any season can turn up great birds. The endangered Red-cockaded Woodpecker can be found on the Longleaf Pine ridges of the Talladega National Forest, and many colorful warblers pass through the region each spring and fall. Waterfowl gather each winter on the region’s rivers and lakes, where Bald Eagles can also be seen at any time of the year.

But this part of Alabama holds some particularly exciting finds during the summer months, when birding can be quiet in other parts of the state. Scissor-tailed Flycatchers, Swallow-tailed Kites and Wood Storks are commonly seen here during the hottest part of the year.

Get out and explore!

28 Sites in 9 Counties = Great Alabama Birding

Wood Stork, Photo by Greg Harber.

Don’t miss these locations:
- **Cahaba River National Wildlife Refuge** (Bibb County) offers access to the longest free-flowing river in Alabama, with more fish species per mile than any other U.S. river. Many riparian wading birds, raptors and songbirds can be seen here.
- **Forkland Campground** (Greene County) is set in a beautiful wooded area on Demopolis Lake, the largest lake on the Black Warrior-Tombigbee Waterway. This Corps of Engineers site has a picnic area, boat ramp, and access to deep water. Expect riparian woodland songbirds, waders, and, in winter, waterfowl.
- **Moundville Archaeological Park** (Hale County) features large Mississippian-era American Indian mounds dotting open fields and marshy areas on the wooded banks of the Black Warrior River. Songbirds, herons and Bald Eagles may be seen here.
- **Lamar County Fishing Lake** (Lamar County) is a 68-acre lake best for songbirds and waders surrounded by open pine woods.
- **Marion County Lake** (Marion County) is a 37-acre lake bordered by pine grove habitat for the endemic Brown-headed Nuthatch. A quiet road through the mixed pine-hardwood forest around the lake offers easy walking.
- **Tom Bevill Lock and Dam Visitors Center** (Pickens County) provides access to good birding around Aliceville Lake. Explore the open, grassy areas and woodlands for songbirds. Look for gulls, eagles, and ducks in winter.
- **University of Alabama Arboretum** (Tuscaloosa County) is a “must-see” for birders. Best in spring and fall migration, it is also a valuable resource for wintering birds.
- **Walker County Fishing Lake** (Walker County) has nesting Tree Swallows and Purple Martins during summer. Yellow Warblers and other songbirds are present from April through October. Ducks can be found each winter.

Wiregrass Birding Trail

Don’t miss these locations:

- **Eufaula National Wildlife Refuge** (Barbour County) is a patchwork of open fields, marshes, and impoundments bounded by Lake Eufaula to one side and mixed woods on the other. The refuge is first-rate for wetland songbirds and waders, as well as many species of waterfowl in winter.

- **Conecuh National Forest** (Covington County) provides habitat for scores of Red-cockaded Woodpecker colonies and hundreds of Bachman’s Sparrows within its 83,000 acres of forest.

- **Crenshaw County Public Lake** (Crenshaw County) is one of the state’s little-known birding jewels, with extensive pine woods, edge, and deep-water lake habitats.

- **Ed Lisenby Public Fishing Lake** (Dale County) is a deep-water lake surrounded by Spanish moss-draped woods. Look for songbirds and raptors in the woods and swallows and waders in the marshy inlets of the lake.

- **Fowler Park, City of Geneva** (Geneva County) overlooks the junction of the Choctawhatchee and Pea Rivers and offers a surprising variety of habitats as well as one of the oldest and largest Live Oaks in Alabama. It is the best site in the county for woodland songbirds, grassland species, and the possibility of Anhingas, Moorhens, and Purple Gallinules.

- **Walter F. George Dam** (Henry County) on Lake Eufaula offers a splendid sampler of southeast Alabama birding habitats at several different locations.

- **Landmark Park** (Houston County) is a 135-acre park built to preserve the area’s natural and cultural heritage.

- **Pike County Public Fishing Lake** (Pike County) provides good birding throughout the year. Its 45-acre lake and its encircling woods are home to wintering ducks as well as Prairie Warblers, Common Yellowthroats, and Summer Tanagers in spring, summer, and fall. Small rafts of ducks in winter are possible.

Get out and explore!

Wiregrass Birding Trail

With sunny, open forests of Long-leaf Pine, extensive wetlands, and huge Live Oaks draped in Spanish moss, the Wiregrass Birding Trail covers a ten-county region in southeastern Alabama. The Trail’s twenty sites, located in national forests, state parks, and other public lands, display the haunting beauty of the southern landscape. From the deep waters and abundant birdlife of Lake Eufaula to the hardwood bottomlands of Dothan’s Landmark Park, and the picturesque Cypress forests of Florala City Wetland Park, expect unusual birds and a landscape different from anywhere else in Alabama.

Any season can turn up great birds. Year round, the endangered Red-cockaded Woodpecker can be found among the tall pines of the Conecuh National Forest, while Osprey soar over the area’s lakes and rivers.

Many colorful warblers pass through each spring and fall on migration. And the waterfowl that gather on the lakes and ponds each winter make the Wiregrass especially productive during colder weather.

**Alabama Coastal Birding Trail**

Alabama’s Gulf Coast is a paradise not only for birders, but for visitors with many different outdoor interests. The Coastal Birding Trail features six birding loops in Baldwin and Mobile counties totaling over 200 miles. Each loop covers different ecological regions representative of the northern Gulf Coast and enables birders to experience different assemblages of bird species within each region.

alabamabirdingtrails.com/trails/coastal

**North Alabama Birding Trail**

Landscapes in the region range from tupelo swamps to blazing fields of wildflowers, and towering forests of oak and hickory to vast sheets of open water replete with loafing waterfowl. As the habitats vary through the valley, so do the seasons. Spring is heralded by the return of neotropical songbirds that stop in while on their journey northward. Summer is filled with breeding woodland species such as flashy Pileated and Red-headed woodpeckers, boisterous Great-crested Flycatchers and Carolina Wrens, and skulking Kentucky and Swainson’s warblers. In the fall, migrant waterfowl, Sandhill Cranes, and a variety of raptors return to spend the winter in the valley, or at least pass through on their way farther south. Once winter’s chill is in the air, large roosts of Bald Eagles form and stragglers from farther north can be found with the abundant waterfowl and gulls.

Visit West Alabama

Use the hashtag #TourWestAlabama when posting about your travels!

Visit West Alabama  TourWestAlabama.com

The Experience
From the storied halls of The University of Alabama to the ancient burial mounds of Moundville; from the free-flowing Cahaba River to the Ironworks of Brierfield and Tannehill State Parks; from barbeque to sweet coconut pie, West Alabama awaits.

Moundville Archaeological Park was once the site of a powerful prehistoric community that was America’s largest city north of Mexico. The park preserves 326 acres where Mississippian Indians constructed 28 massive flat-topped earthen pyramids, arranged carefully around a vast central plaza. The mounds served as elevated platforms for civic and ceremonial structures.

Tour Highlights
- **Arts:** From the Kentuck Festival every fall to the public art of murals in Fayette, there are an abundance of artisans here.
- **History:** Antebellum homes, interesting architecture and fascinating history are waiting.
- **Outdoors:** Hiking, biking, horseback riding and wildlife-watching are just some of the things you’ll find here!
- **Museums:** With ancient history, the civil war and civil rights at our doorstep, step inside to experience more!

Everhope Plantation was initially built in 1852 as a 667-acre cotton plantation. The Antebellum home is now a bed & breakfast, which has hosted a number of international guests.

The Aliceville POW Museum showcases artifacts about the German POW’s and even an original Coca-Cola bottling plant!

Historic Downtown Northport is a must see. Settled in the early 19th century, the area boasts a collection of art galleries, stores, museums, and quaint restaurants. Tourists will find the brick street, ornate lighting, landscaping, and other amenities picturesque.

Include With Other Destinations
West Alabama is home to amazing history and southern culture. Combine that with Elvis’ Graceland in Memphis, U.S. Space & Rocket Center in Huntsville and World of Coca-Cola in Atlanta and Barber Vintage Motorsports Museum of Birmingham, and you have a tour that highlights Southern culture and history.

You could try the best BBQ ribs in Alabama! Dreamland BBQ in Tuscaloosa, Sam’s Smokehouse in Fayette, and Archibald’s BBQ in Northport, have all been named to the top 15 BBQ restaurants in the state.

Brierfield Ironworks State Park  Brierfield, Bibb
Attractions and activities include the historic ruins of the Bibb Naval Furnaces, major confederate ironworks, pioneer style homes, J. Henry Jones Country Store, hiking trails, camping and swimming.

Cahaba River National Wildlife Refuge  Brierfield, Bibb
Established in 2002, the refuge helps to protect the biological heart of the Cahaba River. Thirteen federally threatened or endangered species occur within the refuge boundaries. Over 20,000 people visit the refuge annually to enjoy fishing, hunting, wildlife observation and other compatible wildlife dependent activities. A annual highlight occurs from mid-May through very early June, when the Cahaba lilies bloom. There is an annual festival in West Blocton on the last Saturday in May in honor of these stunning flowers. The festival includes guided tours to the lily shoals.

Bird's Hay Bale Art Farm  Forkland, Greene
Bird's Farm is a large field beside Highway 43 that contains many amusing and imaginative creations, most of which were made with large bales of hay.

University of Alabama Arboretum  Tuscaloosa, Tuscaloosa
The University of Alabama Arboretum maintains plant collections for botanical education and appreciation. The Arboretum features walking trails through a native woodland section, a wildflower garden, a collection of ornamental plants, an experimental garden, and a children's garden.

Great Escapes in West Alabama

Quail Valley Hunting Preserve  Vernon, Lamar
Enjoy quail hunting as it used to be. Lodging or camper hook-ups are available and feel free to bring your own dog.

Pickensville Recreation Area  Pickensville, Pickens
This is an extensive recreation area that stretches from a picnic area and small boardwalk to a campground complex 2.5 miles down the road. Visitors can follow the road a few more miles to reach the west side of the Bevill Lock and Dam. This facility offers 176 campsites that provide picnic tables, campfire rings with grills, electric and water hookups and plenty of shade. There are accessible sites and restrooms.

Shark Tooth Creek Adventures  Aliceville, Pickens
Learn why there are shark teeth 300 miles from the beach and see real shark teeth and fossils. Camping, fishing, swimming and canoeing are also available.

Lake Nicol  Tuscaloosa, Tuscaloosa
Lake Nicol is an attractive, easily accessible, well-maintained, and popular wooded park on a substantial lake. There's great birding in the area, so look for pine-woods birds all year, a few waders and shorebirds, migrant songbirds in spring and fall, and a few ducks and geese in winter.

Jennings Ferry Campground  Akron, Hale
Jennings Ferry has 51 sites and borders the Black Warrior River. All sites have a fire ring, picnic table, grill, water and 50 amp electric hookup. The campground has a playground area, bathhouse and laundry area.

The Best Museums in West Alabama

Mercedes-Benz Visitor Center, Vance, Bibb/Tuscaloosa
Visit the newly redesigned Mercedes-Benz Visitor Center to experience the rich history and the exciting future of the automaker. For more than 20 years, Mercedes-Benz has been manufacturing some of its popular automobiles right here in Alabama, and the Visitor Center is an evolving, interactive tour through some of the legendary manufacturer’s greatest innovations and most promising future concepts.

Fayette Art Museum, Fayette, Fayette
There are now over 4000 pieces in the permanent collection with over 500 running feet of display space on the main floor of the Civic Center and 6 folk art galleries downstairs, as well as a gallery used for the Director/Curator’s office. The Fayette Art Museum was founded in 1969 by Fayette City Council and Jack Black, who was the Museum’s Director for 35 years.

Kirkwood Mansion, Eutaw, Greene
Kirkwood was placed on the National Register of Historic Places on May 17, 1976, due to its architectural significance. The historic antebellum plantation mansion is a Greek Revival style house with Italianate influences.

Moundville Archaeological Park, Moundville, Hale
Called “The Big Apple of the 14th Century” by National Geographic, Moundville Archaeological Park was once the site of a powerful prehistoric community that, at its peak, was America’s largest city north of Mexico. The park has a museum that combines the latest technology with more than 200 stunning artifacts to describe one of the most significant Native American archaeological sites in the United States.
